

Easeflex for Cats contain a mixture of joint nutrients with tasty flavourings that make them easy to feed directly or mixed in food.

Easeflex for Cats contain glucosamine, chondroitin and MSM to soothe stiff joints and help maintain mobility.

Available in a tub of 60 chews, sufficient for 1-2 months supply.

**Each chew contains:**

Glucosamine HCl	150 mg
Chondroitin Sulphate	100 mg
MSM (Methylsulphonylmethane)	50 mg
Manganese Ascorbate	10 mg
Fish Oil (Omega 3 Fatty Acid)	10 mg

The base also contains: Natural tuna flavour, dried cheese, corn starch, water, rice and bran.

**DIRECTIONS FOR USE:**

**Under 5kg** – 1 Easeflex Cat Chew per day.

**5kgs and above** – 2 Easeflex Cat Chews per day.

Feed chew to cat immediately before a meal or add whole or crumbled into food.

The quantity given can often be reduced after 6 weeks.

# EaseFlex<sup>®</sup> for CATS

THE TASTY WAY TO SOOTHE STIFF JOINTS  
AND MAINTAIN MOBILITY

**Can you recognise the signs  
of stiff joints in your cat?**

The Tales of Chedda the cat  
will show you common changes  
in behaviour.

Soft textured  
chews that are  
easy to feed with  
a taste that cats  
appreciate.

Changes within joints in cats tend to go unrecognised because cats show little signs of stiffness.

Cats also spend large amounts of time on their own either exercising or curled up somewhere asleep so any changes in behaviour or movement may be hard to recognise.

**Follow the Tales of Chedda and see if your cat shows similar signs.**

**CHEDDA** DIDN'T GO OUTSIDE ANYMORE, PARTICULARLY IF IT WAS COLD OR WET.

**CATS, LIKE PEOPLE, NEED TO EXERCISE IN ORDER TO MAINTAIN FITNESS.**

AS **CHEDDA** GOT OLDER HE COULDN'T GET TO HIS FAVOURITE SPOTS ANYMORE.

**CATS LIKE TO SIT SOMEWHERE WARM, COMFORTABLE AND SAFE.**

**CHEDDA** WASN'T ABLE TO CHASE MICE ANYMORE.

**CATS ARE NATURAL PREDATORS AND ENJOY HUNTING.**

**CHEDDA** WAS LOOKING MORE AND MORE SCRUFFY.

**CATS FIND IT MORE DIFFICULT TO GROOM THEMSELVES.**

**EaseFlex<sup>®</sup>**  
*for* **CATS**
